

## Drinking for Dummies

On Wednesday, the 28<sup>th</sup> June, classes nine and ten were able to watch the very interesting play. 'Drinking for Dummies' performed by the gorgeous actors of 'White Horse Theatre'.

The play was about a big problem in our today's young society – alcohol. The four friends Barney, Jake, Tamsin and the new girl

Zola met on Saturday evening to have an unforgettable party. Barney is in love with Zola, but he is a very shy guy, that's why his friend Jake wants Barney and all the others to get drunk. He thought that the mood would get more relaxed in this way, but everything went wrong! The play had a really dramatic and sad ending, because Barney was hit by a car and died.

This terrible accident reminds us of, how dangerous alcohol can be, because it is an important topic especially for our today's youth!

The four friendly actors did a great job. Their roles suited them very well and they all spoke really clearly and loudly, so that we were able to understand everything.

The performers worked with a flexible background, which presented the different scenes and locations well.

All in all the actors arranged their play in a very interesting way, because of their humorous kind of playing. They also included the viewers and used good sounds and music, so that the play never got boring.

**We say thanks to 'White Horse Theatre' for this great play!!!**
